

# Google Dorking

By Anson Shaji

I play with different operators like :  
site,filetype,inurl ect.

Then finally by using operator called intitle I  
search like this “ intitle: “admin” ”

This open up different admin login pages of  
different websites .

I got the admin page or login page for PWD executive .

Admin Login

https://pwd.cg.nic.in/EinC\_Control/AdminLogin.aspx

Number of Online Users :165

[HOME](#)

**Executive Login Desk**

Login Type :

☒ PWD Executive

☐ Office Executive

☐ Executive

[Reset Password](#)

2025-08-08

Then I also got the admin page for District  
Headquarter Hospital Odisha
